EXPERIENCE

Cisco Systems, Inc., Bengaluru — Software Engineer (Jul 2020 – Present)

Wipro Technologies, Bengaluru — Senior Software Engineer (Dec 2020 – Jul 2022)

Elait IT Technologies, Chennai — Technology Lead (Nov 2015 – Nov 2020)

PROJECTS

Cisco IT Site Reliability Engineer — Cisco Systems Inc., USA

Manage core Cisco IT network platforms (Catalyst Center, Infoblox, Splunk, ThousandEyes, FMC, Meraki, NSO) as Customer Zero. Oversee platform security and RBAC while maintaining upgrade lifecycles and validation systems. Architect automation workflows for policy updates, reducing manual overhead, and integrate AI capabilities across network operations.

Cisco Catalyst SD-WAN Solution — Cisco Systems Inc., USA

Engineered enterprise SD-WAN infrastructure enhancements to improve scalability and performance. Automated health checks and network diagnostics to accelerate troubleshooting workflows. Designed and deployed a resilient multi-cloud SD-WAN solution with automated disaster recovery, ensuring maximum uptime and high availability across controllers.

Data Engineering — Apple Inc., USA

Architected scalable ETL data pipelines integrating MongoDB for time-series and queue data. Implemented a robust pipeline framework utilizing containerized deployments with Docker and Kubernetes. Streamlined logging and observability using Splunk, Prometheus, and Grafana, while building custom executive dashboards in Tableau to drive analytics.

Data Governance & Lineage — Santander Bank, London, UK

Engineered a Scala transformation parser using ANTLR4 to analyze structured Scala and Spark scripts, enabling automated end-to-end data lineage tracking and comprehensive code auditing for compliance.

Digital Term Life Insurance — Lifely Corp., Miami, Florida, USA

Designed and implemented a scalable REST API suite using Python and Angular to power an end-to-end digital life insurance sales platform. Integrated third-party APIs for real-time underwriting, pricing engines, secure payment gateways, and e-signatures, significantly streamlining the customer acquisition process.

Elait Business Portal — Elait IT Technologies Pvt Ltd, Chennai

Developed full-stack web applications using React and Python REST APIs to streamline internal operations, resource management, and HR workflows. Integrated Microsoft 365 services to automate operational task management and business processes.

Avance 360 — Madras Dyslexia Association, Chennai

Digitized clinical and educational therapy workflows to track student progress across dyslexic intervention programs. Designed intuitive stakeholder dashboards to enable real-time tracking, data sharing, and progress reporting.

Smart Report Cards — Report Bee, Chennai

Built a pilot analytics system using Python and Matplotlib to visualize student performance metrics extracted from MS SQL Server databases. Automated academic progress tracking and holistic assessment reporting across partner institutions.

SKILLS

Scripting Language

Python • Node.js • Bash • C • SQL • NoSQL (MongoDB)

Frameworks

Django • Flask • Falcon • React • Angular • Pandas

Web Servers

Apache HTTP Server • Nginx • uWSGI

Markup

HTML5 • CSS3 • SCSS • Markdown • XML & XSD • Bootstrap • Tailwind CSS

Tools

Figma • Splunk • Prometheus • Grafana • Tableau

Cloud Services

AWS • Azure • Firebase • Docker • Kubernetes

SCM & Project Management

GitHub • GitLab • Azure DevOps • Agile • Scrum

Operating System

macOS • Windows • Ubuntu Linux

EDUCATION

Anna University, Chennai — Bachelor of Engineering

Electronics & Communication
Graduated, May 2015

Jayarani Matriculation School, Salem — High School

Computer Science
June 2009 – May 2011

CERTIFICATION

- ◆ ITIL v4 Foundation
- ◆ Introduction to Generative AI
- ◆ Azure AI Fundamentals
- ◆ Udemy: AWS Developer Associate Training DVA-C01
- ◆ AWS Technical Professional
- ◆ Microsoft Technology Associate – Fundamentals Of C#

LANGUAGES

English • Tamil • Kannada
